EXECUTION CONTEXT

TL;DR

- **Gerenciador do código em execução.** Todo código que está sendo executado pertence a **Um** Execution Context.

EXECUTION CONTEXT

The diagram illustrates the structure of an execution context. It consists of a large blue rounded rectangle representing the execution context. Inside the top-left corner of this rectangle is a smaller gray rounded rectangle. This gray rectangle contains the text "Global Object" and "this" in white, indicating that the global object is the 'this' value for the global execution context.

Global Object
"this"
