EXECUTION CONTEXT

TL;DR

- **Gerenciador do código em execução.** Todo código que está sendo executado pertence a **Um** Execution Context.

EXECUTION CONTEXT

The diagram illustrates the concept of an execution context. It features a large blue rounded rectangle representing the execution context. Inside the top-left corner of this rectangle is a smaller gray rounded rectangle. The gray rectangle contains the text 'Global Object' and 'this' in white, indicating that the global object is the 'this' value within this context.

Global Object
